New at the Library Charging Station

The new charging station offers 8 lockers to charge and sanitize your phones. This addition to library services builds resilience in the community so that if there is a power outage and the library is not affected, residents can come charge their devices. Available cables are USB-C (most newer Android devices, some very new iPhones), Lightning (most iPhones/iPads), and USB-Micro (older Android devices, some non-phone devices like MP3 players).

COMING SOON SNOWMAN PHOTO STATION

Capture the magic of winter at the snowman photo station in the library.

The library offers more than just picturesque moments; immerse yourself in the season by exploring books dedicated to snow and winter activities. Whether you're interested in frosty adventures or cozy tales by the fireplace, the library has a collection that will transport you to a winter wonderland. While you're there don't forget to check on the Fairy Village and have some fun at the puppet theater.

BUY BOOKS AT SECOND STORY BOOKS (IN THE LIBRARY) OR ON EBAY

Second Story Books is a great place to find books in like-new condition while supporting the library. Buying books locally helps to sustain our community and reduce carbon footprint. Second Story Books has a wide range of like new books in various genres. If you're looking for books in excellent condition, Second Story Books is the place for you.

If you purchase an item from the [Friends' Ebay account](#), choose local pickup and we will deliver to you anywhere in town. If you have special items that you would like to donate for us to sell on Ebay, email or message us on Facebook and we'll check them out. We can accept newer text books, less than 2 years old, for sale. Thank you for your support of both our physical Second Story Book store and our online store.
